It is currently reported that Spain has declared she will give up the fight in Cuba if she does not conquer the island before next March. Such may be the determination of Spain, but it does not sound probable, and if it were true, the fact would certainly not have been advertised. It is probable that the fight will continue until Spain either conquers the Cubans or is driven from the island, unless outside interference should bring about a cessation of hostilities in some way.

WHO ARE THE ANARCH- ISTS?

Since the adoption of the democratic platform at Chicago last July, the opponents of free silver have loudly and repeatedly charged its framers with being anarchists, "revolutionists"—yet the speeches made by the advocates of the democratic platform have been throughout temperate and dignified. On the other hand, the gold standard advocates have repeatedly heaped abuse upon the free silver candidates and in the more than one instance have openly threatened that they will not abide by the decision of the ballot box, in the event of Bryan's election. Such was the threat made by Chairman Lanterback of New York. Such is the language of a correspondent of the New York World, who dignifies himself with the title "A Gentleman," when he declares that Bryan will not be permitted to take his seat, even if he is elected. In his letter "A Gentleman" says:

For, let it be understood, the intelligent minority of this nation will no more consent to submit to the mindless tyranny of the unintelligent majority that the whites of the south will bow to the will of the ignorant and outnumbering blacks. Civilization, thank God, has for its defense resources beyond the ballot box.

The Galveston News recently published a long editorial charging Bryan with fanaticism, using the following words uttered by him as proof of the charge:

Every enemy of good government is opposed to free silver.

Yet the News has nothing to say about such seditious and revolutionary speeches as those delivered by Chairman Lanterback and numbers of other gold standard men. Judged by their speech, the charge of being an archist is undoubtedly for more applicable to the gold advocates than to the democrats.

THERE is said to be a Mr. Smith who is a candidate for congress in the eleventh district on the populist ticket, but none of the newspapers of the district have any announcement of the fact. A big roll of circulars setting forth the qualifications, etc., of a Mr. Smith for the said office, was received recently by THE HERALD, which, it is presumed, the said Mr. Smith wishes to be distributed. THE HERALD regrets to inform the author of the circular that it must disappoint his ardent hopes. This paper is not in the bill posting business, but will sell Mr. Smith space at regular rates for the publication of his appeal to the voters of this region.

"WITH the rising of the sun, September 23, Queen Victoria had occupied the English throne one day longer than any other occupant. George III, her grandfather, ruled fifty nine years, three months, and two days.

THE entire South unites with Georgia in lamenting the death of the latter's favored son, Charles F. Crisp, ex-speaker of the house of representatives, who passed away on Friday last.

LEADERS TROUBLED.

The Post's Scoop Worries the
Republican Bosses.

Houston Post.

Dallas, Texas, October 23.—"It will cost us 20,000 votes in Texas," said a prominent member of the republican party when it was learned that the Post had captured the secret circulars.

The publication of the Green and Grant circulars instructing county chairmen how to act on the question of McKinley-Kearby fusion caused consternation at republican headquarters.

Farmer Heinrichs was the first to get a copy of the paper. The circulars caught his eye and he took the elevator at once for the private apartments of Green and Huston. Grant soon after found it out and the publication set them all wild. "How did they get it?" was the question they asked each other and when they scattered in groups there would be crimination and recriminations. In fact, it was distressing to see the mental anguish they experienced. It was a damper on their feelings and they have evidenced that they are not in as good spirits as usual. Grant did not wear the jubilant look he usually carries, Heinrichs had a longer face than ever and Huston did not show the Indiana smile so characteristic with him.

They began to investigate and one after another worked on the various newspaper men, hoping in some way to find the leak. The representative of the Post was singled out as the main conspirator, because he had stated the night before in the lobby of the Oriental that within a short time the nails would be driven in the coffin of the g. o. p.

"How did you get it?" asked first one and then another.

"Get what?" was the inquiring reply.

"Those two circulars?"

"Oh, that was a mind reading trick," replied the Post gent.

Major Peck of Houston was very solicitous. He questioned the Post reporter confidentially on the strength of personal friendship, but he got no answer.

They are all worried. They realize that the publication of this circular exposes to the rank and file of the populist party that they have been sold by the leaders and now they are afraid the leaders will not be able to deliver the goods.

The democrats are jubilant over the exposure. Chairman Blake was communicated with by 'phone and he said he could add nothing to the expressions of the republican leaders. They have told the tale that the democrats have been trying to tell the populists, they have acknowledged the deal which Buck Walton explained and the populists who were to be traded by the head like so many cattle are now aware of the facts.

There is no denial at republican headquarters. The leaders say it will not injure their cause, but that worried look betrays their words.

The Post correspondent called on Chairman Bradley of the populist party. He said he

knew nothing about it. When shown the paragraph referring to the "deal" he said that it would be best to inquire at republican headquarters for an explanation. The fact is the republicans "purchased" for "future delivery" and they now see that the "crop is short" and the sellers have not the article to deliver. Information is difficult to get at present. This "leak" has so demoralized them that not a one will talk. It is understood that two detectives have been employed by the republicans and they are instructed to find out from the Post man or whatever source they can how the information got out. All employees were questioned regarding the handling of the circulars.

"THE TRIUMPH OF LOVE

IS HAPPY, FRUITFUL MARRIAGE!"
Every Man Who Would Know the
Grand Truths, the Plain Facts, the
New Discoveries of Medical Science
as Applied to Married Life, Who
Would Atone for Past Errors and
Avoid Future Pitfalls, Should Secure
the Wonderful Little Book Called
"Complete Manhood, and How to At-
tain It."

"Here at last is information from a high
medical source that must work wonders with
this generation of men."
The book fully describes a method by which
to attain full vigor and manly power.
A method by which to end all unmanly
feeling on the system.

To cure nervousness, lack of self-control, and
exhaustion, etc.
To exorcise a faded and worn nature for
one of brightness, buoyancy and power.
To banish forever effects of excesses, overwork,
worry, etc.
To give full strength, development and tone
to every portion and organ of the body.
Age no barrier. Failure impossible. Two
thousand references.
The book is purely medical and scientific,
useless to curiosity seekers, invaluable to men
only who need it.
A despairing man, who had applied to us,
soon after wrote:
"Well, I tell you that first day is one I'll
never forget. I just bubbled with joy. I
wanted to hug everybody and tell them my
old self had died yesterday, and my new self
was born today. Why didn't you tell me
when I first wrote that I would find it this
way?"
And another thus:
"If you dumped a cart load of gold, and my
feet would not bring such gladness into my
life as your method has done."
Apply to the FIRST MEDICAL COMPANY,
Herald Bldg., and ask for the little book
called "COMPLETE MANHOOD." Refer to
this paper, and the company promises to send
the book, in sealed envelope, without any

vested.

THAT'S RIGHT.

Floresville Chronicle.

That Bell, a San Antonio Republican, has been "scotting" around in the Eleventh congressional district, touching the ground only in high places, and he tells the Republican morning paper of San Antonio that Judge Grass, (late of Iowa) has a dead thing on being elected to congress, and that Kleberg will not carry his own county. Bell doesn't know anything about the situation in this district. Kleberg will get more votes than Grass and Smith together.

The division line between statesmanship and demagoguery is a very narrow one in this country.

The human fly is much more annoying than his many-legged prototype.

ONE GIVES RELIEF.

A RICH MAN'S WISDOM.

To the Editor of the Post-Dispatch.

The following is the most sensible answer yet given a very rich man, I think, to the question, "Why are you supporting Bryan and Sewall, who not only favor the free coinage of silver, but are earnest advocates also of an income tax, which would strike you heavily?"

"Well, I believe they are right; they are advocating the cause of the masses as against the infinitesimal classes.

"Second. I have read history; I am not a fool; I would rather pay an income tax of 10 per cent or more (I would have plenty left) than to have all my wealth seized and chaos rule, as it did in France once, and will here, if present conditions continue much longer. Those lines of Goldsmith:

"Ill fares the land to hastening Ihs a prey
Where wealth accumulates and Men
decay,"

referred, no doubt, to the destruction of the civilization of Nineveh, Babylon, Assyria, Egypt, Greece and Rome. The wealth of these countries was in the hands of a few people; the masses were little better than slaves.

"Third. I inherited a large part of my wealth; the law gave me an undue advantage, and under its discriminating protection I was soon able to accumulate all that a reasonable man ought to want. At any rate, I have enough, and, thank God, I have never permitted myself to become so wrapped up in the pursuit of gain as to lose all human sympathy and become blind to the condition of my countrymen. When I see thousands of them idle, begging for work which they cannot get, I know there must be something radically wrong, and investigation fairly made has convinced me that the demonetization of silver and placing of the circulation of our country upon a gold basis has had more to do with our troubles than all other causes combined, not excepting the unequal tariff tax."

GOLD FROM THE ANTIPODES.

San Francisco, Cal., Oct. 23.—The steamship Monowai, just arrived from Australia, carried gold sovereigns amounting in value to over £457,000 or about \$2,385,000. The money was consigned to Assistant United States Treasurer Berry and will probably be melted down and made into United States \$20 pieces.
